

DL5 Plus

World's Most Advanced Dermoscope.
Gold Standard, Redefined.

Brightest Ever
UV fluorescence,

2.6x
the power of DL5

Brightest Ever LEDs,
Up to

35%
brighter than DL5

Captures

4 Images with
Just One Tap.

- X Polarized
- Parallel - Polarised
- Non - Polarized
- UV

5+ hours of continuous use.

Vacation Mode
ensures it never lets
you down.

CROSS - POLARISED

PARALLEL - POLARISED

NON - POLARISED

First-ever
**DermLite
app**

Capture, Compare,
Follow-up,
All in one place.

DL5 Plus

DL5 vs DL5 Plus Comparison

Feature	DL5	DL5 Plus
Illumination	High-quality standard brightness	Upto 35% brighter LED illumination in all modes
UV Fluorescence Dermoscopy (365 nm)	Available	More than 2x brighter
PigmentBoost® Enhanced pigmented lesion visualization	Yes, via 9 color temperature levels	
Optics	32 mm, true 10x	
Polarization	Variable (cross / non / parallel)	
Battery life	>5h life on medium brightness	Same plus improved energy management ('Vacation Mode')
Smartphone compatibility Attach it to any iPhone or Android phone	Yes, via included adapter	
DermLite app compatibility	Yes	
AI decision support through the DermLite app	Yes	
App-controlled	No	Yes – direct control of device functions via Bluetooth
Workflow integration Follow-up, compare, mark dermoscopy on clinical images	App-supported workflow possible	Fully integrated app workflow with direct device interaction
MultiShot Capture polarized, non-polarized, UV with one tap	No	Yes

One Platform. Every Patient.

AI Risk Scoring
Secure Cloud Storage
Patient Management
